Contents of Volume 2

Number 1

Editorial: Painful clinical trials 1
Maternal smoking in pregnancy 2

From our own correspondents 5

Management of pregnancy and childbirth in England and Wales and in France 13
M. Kaminski, B. Blondel and G. Bréart

Could oedema and proteinuria in pregnancy be used to screen for high risk? 25
The WHO International Collaborative Study of Hypertensive Disorders of Pregnancy

Interobserver variability in neonatal cranial ultrasonography 43
J. Pinto, N. Paneth, E. Kazam, R. Kairam, S. Wallenstein, W. Rose, D. Rosenfeld, S. Schonfeld, I. Stein and T. Witomski

The longitudinal study of the Northern Finland birth cohort of 1966 59
P. Rantakallio

Short report: High incidence of neural tube defects in Bursa, Turkey 89
N. Akar, A.O. Cavdar and A. Arcasoy

Book reviews 92

Literature reviews 12, 97, 101

Invited annotation: Birthweight and perinatal mortality: a tale of two populations 98
T.J. Peters

Correspondence 104

Number 2

Editorial: Dilemmas of child sexual abuse 107

From our own correspondents
Fumes from the spleen 116
Whose baby is it anyway? 118
So what? Bugs in the bran 123

Original articles
Marital status and cohabitation during pregnancy: relationship with social conditions, antenatal care and pregnancy outcome in France 125
Béatrice Blondel and Marie-Christine Zuber

The perinatal morbidity and mortality survey of Jamaica 1986–1987 138
Deanna Ashley, Affette McCaw-Binns and Karen Foster-Williams

The perinatal morbidity and mortality survey of Jamaica 1986–1987 138
Deanna Ashley, Affette McCaw-Binns and Karen Foster-Williams

Trends in infantile hypertrophic pyloric stenosis in Olmsted County, Minnesota, 1950–1984 148
Mary B. Jedd, L. Joseph Melton III, Marie R. Griffin, Bruce H. Kaufman, Alan D. Hoffman, Daniel D. Broughton and Peter C. O'Brien

Short report: Incidence of child abuse: depends who you ask 158
A. Sharma and R. Sunderland

Review article: The epidemiology and service implications of congenital and constitutional anomalies in ethnic minorities in the United Kingdom 161
Julian Little and Angus Nicoll

The conference scene: Human genetics in California; International epidemiology in Finland, ISCB-8 in Sweden; Paediatrics in the tropics 185

Book reviews 147, 191

Literature reviews 137, 157, 160, 190

Correspondence: Neonatal care and neonatal survival 198

Announcement 200

Number 3

Editorial: Quality or quantity—where to draw the line? 201

Invited annotation: Small-for-dates babies: a developmental update 203
Margaret Ounsted

From our own correspondents
Fumes from the spleen 208
So what? To change or not to change? 210
Fashion or cuts? 211

Original articles
Is perinatal mortality still a good indicator of perinatal care? 213
D.J. Field, Heather Smith, Elizabeth Mason and A.D. Milner

Prediction of outcome shortly after delivery for the very low birthweight ($\leq$1500 g) infant 221
C.C. Patterson and H.L. Halliday

Childhood neurological morbidity and its association with gestational age, intrauterine growth retardation and perinatal stress 229
Anne T. Berg

The Liverpool Congenital Malformations Registry 240
J.R. Owens, J.M. Simpkin, L. McGuinness and F. Harris

Preliminary evaluation of the impact of the Chernobyl radiological contamination on the frequency of central nervous system malformations in 18 regions of Europe 253
The EUROCAT Working Group

The California Child Health and Development Studies of the School of Public Health, University of California at Berkeley 265
Bea J. van den Berg, Roberta E. Christianson and F.W. Oechsli 265

The conference scene: Social reproduction in Malta; Society for Social Medicine 283

Book reviews 212, 228, 252, 287

Literature reviews 219, 220, 239, 264, 286, 297

Erratum: Perinatology—how firm a foundation? 239

Number 4

Invited annotation: Does continuous intrapartum fetal monitoring predict long-term neurological disorders? 299
Judith Lumley

From our own correspondents
Fumes from the spleen 308
Drugs in pregnancy and birth—some concerns 310

Original articles
Diabetes in pregnancy: maternal and infant outcome 314
S.R. Heckbert, C.R. Stephens and J.R. Daling

Patent ductus arteriosus in a cohort of 1338 preterm infants: a collaborative study 328
M. van de Bor, S.P. Verloove-Vanhorick, R. Brand and J.H. Ruys

Seasonality in the sudden infant death syndrome 337
C. Osmond and M. Murphy

Use of antibiotics and prescription drugs in general during the first 9 years of life in a Swedish community 346
F. Rasmussen

Commentary
Interpretation of indices of fetal pulmonary maturity by gestational age 360
L.J. VanMarter, D.M. Berwick, J. Torday et al.

Invited annotation: Small-for-dates babies: heterogeneity and the concept of 'brain sparing' 365
M. Ounsted

The conference scene: Gestational hypertension in Montreal 371; British paediatrics discovers epidemiological methods 372

Correspondence: The anal dilatation test in child sexual abuse 378
